

YOU'RE INVITED TO

Partnering with Purpose

Come and join Wayne Manners, President and CEO, Boral Australia and Susan Lloyd-Hurwitz, CEO & Managing Director, Mirvac Group who will discuss partnering with purpose with Habitat for Humanity Australia.

Enhancing business partnerships
through building communities.

Ever thought about building your business relationships by building a house together?

In May, the CEOs of Mirvac and Boral, along with a team of 11 senior executives did just that! The team of 13 took their working relationship to a whole new level. They flew to Central Vietnam and built a home together over a week, alongside a family living in vulnerable conditions.

Come and hear about their experience and learn how partnering with Habitat for Humanity Australia could benefit your team and build stronger relationships.

We encourage you to share this invitation with your business partners.
