

Mother and Son Build Battambang, Cambodia

3rd - 10th October, 2020

Battambang Build Information

Battambang is located in the far northwestern part of Cambodia and ranks as the fourth most populous province. The province's fertile rice fields and agricultural economy led it to be known as "the Rice Bowl of Cambodia."

Together with Habitat For Humanity, Battambang Municipality has been proactive in attempting to resolve its informal settlements issues. The Mother and Son Build aims to secure land tenure and build safe, sustainable housing for families living in squatter and informal settlements. The impact of the homes will be far reaching and will give hope for generations. Healthy homes, with cement floors, improved ventilation, clean water and sanitation facilities have immediate health benefits. Families will also receive skills training and, with a home to call their own, will have a foundation to live a better quality life and earn a steady income.
